

Before I Die

Drist

Watch, the seconds as they drop
The lives and then they stop
The world is ending
(The world is ending)
There's nothing said yet
The second hands will halt
Then worn with a chill
Will be drowned down in laughter
Before I die
Would you listen to me
Before the fall
Reasoning
Know, the damage you have done
The cost to save your face
Will be gone Wednesdays
(Will be gone Wednesdays)
Until you are satisfied
Where hostages draw blood
Our lives and then they stop
The world is ending
(The world is ending)
Before I die
Would you listen to me
Before the fall
Reasoning
Before I die
Would you listen to me
Before the fall
Reasoning
Before I die
Would you listen to me
Before the fall
Reasoning
