

No Ceiling

Eddie Vedder

Comes the morning
When I can feel
That there's nothing
Left to be concealed
Moving on,
a scene surreal
Know my heart will never
Never be far from here

Sure as I'm breathing
Sure as I'm sad
I'll keep this wisdom
In my flesh
I leave here believing
More than I had
And there's a reason I'll be
Reason I'll be back

As I walk
the hemisphere
Got my wish
to up and disappear
I been wounded
I been healed
Now for landing I been
Landing I been cleared

Sure as I'm breathing
Sure as I'm sad
I'll keep this wisdom
In my flesh
I leave here believing
More than I had
This love has got
No ceiling
