

Amber, what will become?
I see the fire, you call the sun
Amber, you're just a child
Dressed like a father without the smile
Amber, they broke the vow
Hoping to hold you, forgotten how
Amber, Amber, Amber
Piece of the whole
The light that's inside you's
Starting to glow

Amber, Amber, Amber
The only thing we know
Everyone waits the calling, oh
Amber, Amber, Amber
We all will have to go
Even when life is falling, oh

Amber, when will you tire?
Poor sullen limbs may break the wire
Amber, I hear the sea
Storming inside you, unspoken plea
Amber, the blue above
Cyprus and Elm, answer to none
Amber, Amber, Amber
Piece of the whole
The light that's inside you's
Starting to show

Today gave it all away, o-oh
So awake ago, oh, oh, oh

Amber, Amber, Amber
The only thing we know
Everyone waits the calling, oh
Amber, Amber, Amber
We all will have to go
Even when life is falling, oh
The only thing we know
We all will have to go
Amber, Amber, Amber
Everyone waits the calling
