

# Know I Would

Eli Young Band

If I ever got that '56 that I always wanted, I'd drive down to  
LA  
Cruise along some beach front road playin' "Surfin' U.S.A."  
If I ever won the lottery, I'd buy a house in the hills  
I'd give some of it to charity, and I'd spend the rest of it on  
thrills

But I'd want you right there beside me  
You know I would  
Right there beside me  
And I would give you everything  
You know I would

If I ever was a movie star, I'd light up the silver screen  
And everyone in Hollywood would say that I'm the next James Dea  
n  
Maybe I'll just stay right here get a job and settle down  
Have a house with a white picket fence and grow old in this tow  
n

But I'd want you right there beside me  
You know I would  
Right there beside me  
And I would give you everything  
You know I would  
Yeah you know I would

But I'd want you right there beside me  
You know I would  
Right there beside me  
And I would give you everything  
You know I would  
Yeah you know I would
