

## Death Of The Weakender

End of Green

Since i see no sun  
seems there is no morning  
feel my old bones  
i'm so fed up with everything  
i stick to these guns  
they're pointing at me  
i got no place to move  
i've been so dead for long  
i'm miles away from home  
dead, i found you  
i'm miles away from home  
dead, i found you  
make no compromises  
see the weight that rises  
sacrifice the day before you gonna die  
baby, you can't stop me now  
make no compromise, see the pretty lies  
sacrifice the days you know you're going to die  
maybe you can't stop me now  
i have seen the sunset of fear too long  
i have been the one you forced to be strong
