You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you

Oh how I've missed you since you've been gone lonely nights and dark clouds all day long

Standin' by my window watchin' it rain when I pop the rainbow a nd in you came

You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you

You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you

I get so lonely while you are gone and while I'm waiting it see ms so long

You take my sunshine away with you but when you come back my sk ies turn blue

You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you

I'm living in sunshine when I'm with you
