

Sometimes I'm seen as cold inside  
Security bound and cold sharp eyes  
Come to the other side  
See the one that all of them don't know

I got tons of faith and a passion play  
Loner of the Zodiac they say  
I don't ride the wind  
I know where I am each day

Let's see the other side  
See the world outside - this time

Cut down the walls, look deep inside  
Showing the storm tasting the light in my eyes

Capricorn must feel the self sufficient touch  
We call it taking hold of life we don't call this luck  
Scatter through the maze, make sense of it all  
Capricorn will be the last one to fall  
In this life...

I'm the Capricorn, the Capricorn

I can hear the cries of all those who've failed  
They sit around and tell their insufficient tales  
I can be the one to watch the cloud roll in  
And this life to pray for sun and listen to your sins  
In this life...

I'm the Capricorn, the Capricorn

Saturn tells me who I hear and who I will see  
I'm the goat, the Capricorn, now get out of me!

To the other side...
