

# Evening of Love

Etta James

How could she let a man as good as you  
Slip through her fingers?  
But then she didn't know  
I was here standing in line

I would have never ever treated you bad  
If I had met her  
Because all my life, all my life  
I've been the loving kind

Oh baby, why don't you spend  
An evening of love with me?  
And if we should fall in love  
Ain't it just what we both need?

An evening of love to remember  
I'm just as lonely as you are  
Oh, baby  
Oh, baby

I hope tomorrow, you'll wake up and find  
You don't need her  
And as long as I'm around  
You never will

'Cause I wanna hold you as close to my heart  
As my body will let me  
And oh I know and I know the way  
That you feel

Oh baby, why don't you spend  
An evening of love with me?  
And if we should fall in love  
Ain't it just what we both need, hey, hey

An evening of love to remember  
I'm just as lonely as you are  
Oh, baby  
Oh, baby

Oh baby, why don't you spend  
An evening of love with me?  
And if we should fall in love  
Ain't it just what we both need?

Oh baby, why don't you spend  
An evening of love with me?  
If we should fall in love  
Ain't it just what we both need?

Baby, why don't you spend  
An evening of love with me?  
If we should fall in love  
Ain't it just what we both need, oh?
