I am dreaming of a Michigan girlfriend All bright-eyed and happy in pain I am dreaming of a Michigan girl See her come around Fall down, break & scatter everywhere I close my eyes and I can see her waiting I am pleading for a Michigan dream girl I am pleading for a Michigan girl See her come around Big lie wrapped inside her little glove I close my eyes and I can see her waiting patient for me I cover my ears I clear my mind She starts to fade I am dreaming of a Michigan girlfriend She's starting to fade I am dreaming of a Michigan girl I close my eyes I see her waiting oh so patient for me I cover my ears I close my mind She's starting to fade
