Hold Your Horses

Hold your horses, they will run away if you turn your back to them Don't look away Hold your horses near

Run away like a child Run away like a child Run away, run and hide Run with horses by your side

Hang on, high speed It's a different place But my feeling they repeat New ground, same feet Only for a while Only stay a while

Run away like a child Run away like a child Run away, run and hide Run with horses by your side Fallulah
