

# I'm Not Done

Fever Ray

So, I lost my head a while ago  
But you seem to have done no better

We set fire in the snow  
It ain't over I'm not done

Some do magic  
some do harm  
I'm holding on holding on  
I'm holding on to a straw

Who is the Alpha  
What is made of cloth  
How do you say you're sorry and there's nothing  
to be afraid of

Is it dark already  
How light is a light  
Do you laugh while screaming  
Is it cold outside

One thing I know for certain  
I'm pretty sure  
It ain't over  
I'm not done
