

Now's the Only Time I Know

Fever Ray

Dark brown hair and eyelash
Reappear in a flash
Now's the only time I know

Early morning's greatest deed
What's forsaken I do not need
There is water there is snow

Settling down door and room
Keep it tidy keep it like home
Now's the only time I know

Come here sparrow
Watch my hand
Black and blue seeds
That is what my hand can
Now's the only time I know

Do my hair paint eyelash
Reappear in a flash
There is more I'd like to know

Nine fifteen then I'm done
Quiet front seat then drive around
Through the water through the snow
