

Lost Like Tears in Rain

Fightstar

I'm not from around here
I'll hold onto you but

I cant hold on
To this day it's all gone

(Waiting always)
It came down to save us
(Untouched open)
And end it all

Cause I'm under the outside
And over all

Cause I'm a thousand miles away
And I'm out of oxygen
And now I'm falling faster than
I'd like to to be

And I'm closer to the sky
Than I'll ever be to you again
Find the exits signs and disappear

We were hated
It seems we were all wrong

(Find me bleeding)
We looked up to lose
(Peacefulness)
Our way again

Cause I'm under the outside
And over all

Cause I'm a thousand miles away
And I'm out of oxygen
And now I'm falling faster than
I'd like to to be

And I'm close to the sky
Than I'll ever be to you again
Find the exit signs and disappear

Some things don't
(Change)

Fall

(Born from angels)
Let's star this all over again
With the same generation

It's neon-genesis
