

Get Ready

Firehouse

I know the storm is coming there are clouds up ahead
You can't keep running you better face the clouds instead
When the storm winds blow don't you cover and hide
You've got to let go of the demons you're keeping inside
There's no shelter from your pain

So get ready for the rain
Get ready for the rain

Now you can't change the weather
though you've tried to for years
But the rain is coming and there's no way
to hold back the tears
Too late to say you're sorry
you'll have to take the blame
But the water is rising and it won't wash
your problems away
There's no shelter from your pain

So get ready for the rain
Get ready for the rain

So get ready for the rain
Get ready for the rain
