Get Ready

Firehouse

I know the storm is coming there are clouds up ahead You can't keep running you better face the clouds instead When the storm winds blow don't you cover and hide You've got to let go of the demons you're keeping inside There's no shelter from your pain

So get ready for the rain Get ready for the rain

Now you can't change the weather though you've tried to for years
But the rain is coming and there's no way to hold back the tears
Too late to say you're sorry you'll have to take the blame
But the water is rising and it won't wash your problems away
There's no shelter from your pain

So get ready for the rain Get ready for the rain

So get ready for the rain Get ready for the rain
