

Mercenary greedy desecrated men  
bread upon the ancients  
Demiurges of the wise law that have been forgotten  
Covered by deceit, venomous, glittering, complex words

Curse you all dead preachers, traitors disguised  
Hedonism absolute will betray your mind

Fear his denial as a stab  
Rebel attack of force of probity  
Rises again from the ash  
Reborn in hate just to make them suffer

Low manipulators those who bring their education  
The denial of the values of human antiquity  
Chaining the evolution for their own glorification  
Leaders of the rectitude are now working in the underground  
To strike back with an army of titanical revenge  
Fear the incoming terror as pray your nonexistent

Proud, the Knowledge is conquering his throne  
Philosopher new order's born  
After this never ending exile  
Enlightened centuries shall come now  
Write the new Law with their rotten blood  
Turn sophisms into concrete words  
Grieve them denying their dazing logos  
Aeonic lie will be erased

Extermination of those who will not obey  
Ratio dominator  
Kills every men that still believe in sacred fakes  
Beg for her mercy, victim of, your beloved, idiocy

Melted in agony, masquerade shame  
Downfall pathological is the sign of your end  
Prayers will condemn them all to pray
