

Change My Ways

Flunk

I've got to change my ways
I've got to change my ways
I've got to change my ways
I've got to buy a new dress, and do my hair
My hair is everywhere - these days
I've got to change my ways

I've got to change my ways
I've got to change my ways
I've got to change my ways
I've got to buy a new dress, and do my hair
My hair is everywhere - these days
I've got to change my ways

I could change my name, and change my number
Change my frame of mind from slumber
I've got to change my ways

I've got to change my ways
I want to change the world
I can't even change this girl
I want to change the world
But I can't even change myself
I've got to change my ways

I've got to change my ways
I've got to change my ways
I've got to change my ways
I've got to change my ways
I want to change the world
I can't even change this girl
I want to change the world
But I can't even change myself
I've got to change my ways

I've got to change my attitude
I've got to change my diet
I've got to change my quiet moods
I've got to change that hi hat
I've got to change that ringtone on my phone
I've got to change my habits
I've got to go to Rome in the fall
Before I've had it
