

At the End of the World

Frank Black

He came from the north
On a late night comedy show
At the end of the world
The cameras they rolled to the flow
Candy went and blew my mind today
It was apparently normal
Now he's going to spend some time away
I feel so abnormal
Candy went and blew my mind today
At the end of the world
Down in Durango
I said pretty please
Candy, you can't go
The sun came up
Less one ray
Candy went and blew my mind today
It was apparently normal
Now he's going to spend some time away
I feel so abnormal
Candy went and blew my mind today
He came from the north
On a late night comedy show
Near the end of the world
The cameras they rolled to the flow
