Eat Drugs First

Frankenstein Drag Queens from Planet 13

I won't tune my guitar
I won't even start my car
I won't even get out of bed
Unless I've got it fucking up my head

We've got no future
And we've got no hope
We don't wanna do anything
Until we get our dope

That's why we eat drugs first

We don't know wrong from right
According to your stereo type
And yes we've got our problems
And we don't even care to solve 'em
