

The Only Way

Freak Kitchen

You should be welcome now
To our show today
It's society in a modern way

Follow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind lead the blind

The more I see
Of life in this special way
Where the will to live
Breaks down from day to day

The more i'm sure
I am stuck in a big charade
Where everyone
Is dying to be displayed

And when i'm notified
That they can't understand my mind

Cause there's a doubt
I raise my head Up high
I'm breaking out because i know it's right

Follow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind lead the blind

The man behind the mirror hides the truth
Well, it's always been like that
The man behind the mirror hides the truth
