

# Warriors Of Light

## Freedom Call

We're standing on the edge of time  
We're riding to the stars  
And we never will surrender  
Lonely knights we are

And we are flying into the open sky  
Gliding to the stars  
We are standing strong together  
But still they seem so far

And we're diving into eternity  
Facing destiny  
And we are flying away eternally  
Forever riding free

Hands up high  
Oh warriors of light  
And carry on a thousand times  
You're forever lasting ride

Land of light  
The glorious unite  
Oasis for a thousand lifes  
Forever we survive

We're flying to the promised land  
To the gates of no return  
We're heading for the future  
And we'll fight until the end

Bridge / Chorus

Once upon a time  
We reached the stars our hands have touched the sky
