

Sacred Place

Future of Forestry

Come into this sacred place
Come into my heart and sing Your song of grace
Pull me safe into the deep
Pull me in to where the depths of love meet
Sing, sing over me until dawn
Pull me safe into the deep

Come and carry me away
Come into my heart and turn this night to day
Come into this sacred place
Come into my heart and sing

'Cause I can hear You now
And You're the only sound
I give You all my love
You've rescued me
You embrace me, and You calm me
You persuade me, You console me
