

## Capital (It Fails Us Now)

Gang of Four

The moment I was born  
I opened my eyes  
I reached out  
For my credit card  
Oh no, I left it in my other suit!

Capital, it fails us now  
Comrade let us seize the time  
(I left it in my other suit!)

On the first day of my life  
I opened my eyes  
Guess where?  
With superstars  
Surrounded by luxury goods

I need a freezer,  
I need a hi-fi

No credit, no goods  
Call my bank, I say  
They say "we're bankrupt"

Capital, it fails us now  
Come out, let us seize the time  
Capital, it fails us now  
Comrades, let us seize the time

Capital it fails us now  
(I reached out, for my credit card)  
Oh no! I left it in my other suit!

One day old and I'm living on credit  
One day old and I'm living on credit  
(I'm selling credit, just)  
One day old and I'm living on credit

([unintelligible] at a superstore)

One day old and I'm living on credit

One day old and I'm living on credit

[unintelligible chant and response between Gill and King here]
