

# Battle in Me

Garbage

Oh, look at you, an accident of drinking  
What a mess, a train wreck of lipstick  
What a joke, well, do you hear me laughing?  
Get out my face before I lose my patience

Oh me and you, let's cut this party  
Oh, little boy, it takes a lot to shake me  
So shake it

It's the battle in me  
It's the battle in you  
It's the battle in me  
It's the battle in you

It's a bloody war of attrition  
Let's see which one of us is gonna last tonight  
'Cause I have all of my wits around me  
and I'll be damned if I'm done

We'll rock the place right when the room stops spinning  
Oh make it hard  
I want something to happen  
So make it happen

It's the battle in me  
It's the battle in you  
It's the battle in me  
It's the battle in you

Let's take a torch  
to the past, to the future  
Let's make out  
I won't tell your girlfriend  
See how it feels, with the passion burning  
We'll be damned when we're done

Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up

'Cause it's the battle in you  
It's the battle in me  
'Cause it's the battle in you  
It's the battle in me

Oh, shake it, shake it  
Oh shake it up  
Shake it, shake it  
Oh shake it up  
Shake it, shake it  
Shake it off
