

Never Alone Again

Gates of Ishtar

View my secrets, Crawl inside
Taste and feel all my pain
Stand beside me all for one
Never leave me again
Help me find the truth beyond
Words buried by dust
Open up the slanderer's den
Tear and slaughter their lies

Come with me, take my hand
Far away from the promised land
Face your fears, As one we stand
Never alone again

Close the chapter, Set things straight
Fools guided by christ,
cross our path and you're bound to die
Come, Join us tonight
Tear your blindfold, cleanse your mind
Lost, Setting the way
Find the one of darkness spawned
Kill, Enlighten assay
