

# Radiation

Gavin DeGraw

Na na na nana na na nah  
Na na na nana na na nah

I'll lay it down one time through, gather round  
Though this is a chore  
So rich with lies, I prefer poor advice  
And showed her the door

This is your goodbye and kiss opportunity  
Thought you were burning me down  
But I'm finally free and...

If you miss me don't  
If I never wanna see you again  
I won't  
If you get an invitation  
I'm probably drunk  
You're just as hot as radiation  
But I'm in this situation

Oh the sun came up  
Tell me where'd I park?  
We did it again.  
We had some fun  
Did some things  
We got dumb  
But I want it to end

Cause I only give in  
When I get the need  
I'm only coming around  
Cause I get to leave and...

If you miss me don't  
If I never wanna see you again  
I won't  
If you get an invitation  
I'm probably drunk  
You're just as hot as radiation  
But I'm in this situation

Can't breathe, I can't sleep  
Thinking 'bout the best of you and,  
Some things I couldn't see  
What about the rest of you?  
Well, you're under my skin  
But I can't let you win  
Though you don't see scars  
That's exactly what they are baby  
Na na nana na nah  
Na na nana na nah  
Ooooh oh  
Baby, baby, baby  
You're never gonna hurt me

If you miss me don't  
If I never wanna see you again

I won't  
If you get an invitation  
I'm probably drunk  
You're just as hot as radiation  
But I'm in this situation  
(2x)

Na na nana na nah  
Yes I am  
Na na nana na nah  
I gotta get out  
Na na nana na nah  
Na na nana na nah  
If you miss me  
If you miss me, if you miss me  
Na na nana na nah  
Na na nana na nah...
