

# Faces In The Dark

## Generational

I take some comfort in losing my memory  
(Oh wait, oh, don't you let me down)  
Then I get it back and I said,  
"So this is what they mean?"  
(Oh wait, oh, don't you get around)  
They don't say that don't make it hard

Everybody's making faces in the dark  
Don't stop struggling, that's what sets you apart.  
It's the ghost of inhibition that's what's breaking your heart  
Everybody, everybody's making faces in the dark.

I understood inhibition I was listening to  
(They don't give up, they don't give in)  
It's the middle of the summer and I got nothing to do  
(Somebody get out, somebody get in)  
I only miss my own city park

(Everybody)  
Everybody's making faces in the dark  
(Don't stop struggling)  
Don't stop struggling, that's what sets you apart  
(Ghost of inhibition starts)  
It's the ghost of inhibition that's what's breaking you heart  
Everybody, everybody's making faces in the dark

And you let yourself see  
You're making a mess of it all  
And Esteban, your sister and me  
We're all right

There is a perception of a regular thing  
You have been covering up all the things  
You won't let anyone see  
Though you're really close by you won't see me  
I got a double in the city that's burying me tonight

So how is it that the memory's still so clear?  
(They don't let up whatever they know)  
And you can't sell it back so pretty while it's here  
(They don't get out wherever they go)  
They get sad and it tempts and they start

(Everybody)  
Everybody's making faces in the dark  
(Don't stop struggling)  
Don't stop struggling, that's what sets you apart  
(Ghost of inhibition starts)  
It's the ghost of inhibition that's what's breaking you heart  
Everybody, everybody's making faces in the dark

Everybody...  
Don't stop struggling...  
Ghost of inhibition starts...

Everybody...  
Don't stop struggling...

Ghost of inhibition starts...
