How about you Will you see this through How about you Will you be strong, or am I wrong

Have I stayed too long
And sung the wrong song, oh, baby
Come home too late, put you in a state
That you can't see your way through

Oh, how about you Will you even try not to deny that that is right with us
Baby hold on, before it's gone, oh

How about you, baby Do you say we're through Oh, how about you Have moved on, found a new song

Oh, how about you Should we start anew Won't you answer me please, I'm down on my knees beggin' you

To make your move
Do you feel the same
Or am I insane, blinded by cold-hearted love
Is this a game, that both of us lose

Baby, please, please choose

How about you
Do you feel like I do
How about you
How about youThis tango's for two
Oh,how about you

Will you even try not to deny that that is right with us Or am I insane, blinded by cold-hearted love Is this a game, that both of us lose Come on, just choose

How about you, baby I want to see this through Now it's up to you, decide what you'll do before it's too late
