

Think About Me

Git Fresh

She's staring at the mirror... my hands all over her
Oh oh oh oh oh
She pip in the shower wishing I was there with her
Oh oh oh oh oh oh

I... fantasy when I come around
She don't nobody else has to come and put it down
Down, down, down by me
There can only be one.
She don't wanna sing...
She know I'ma get it up like wow, wow, wow
That's me, there can only be one
And that's my...

I know who you're thinking about
Touching your hair,
I know who you're thinking about
Me, me, thinking about me, me, me
And I've been... , I know you've thinking about me.
When you're playing with you toy
I know who you're thinking about
You've been trying to front, front,
I know who you're thinking about
Me, me, thinking about me, me, me
I know you've thinking about me.

I was told you ain't got it nice
And till you got a wife
But you know I'ma ball a cause
I'm never gonna fall in love
... damn lie, ladies put your hands high
Ain't man to try to get a... man to stand by
Put the... emotions can make a man cry
But my wife the tears and just stay...
Who b*tch you dare... who did you care for,
That's got to act, to prove that you got respect
Prove that you're not... , don't creep the whole around
Holding down, 'cause you know what comes around
Goes around, and I'm older now... may sound kind of weird
And I'ma damn...

I... fantasy when I come around
She don't nobody else has to come and put it down
Down, down, down by me
There can only be one.
She don't wanna sing...
She know I'ma get it up like wow, wow, wow
That's me, there can only be one
And that's my...

I know who you're thinking about
Touching your hair,
I know who you're thinking about
Me, me, thinking about me, me, me
And I've been... , I know you've thinking about me.
When you're playing with you toy
I know who you're thinking about

You've been trying to front, front,
I know who you're thinking about
Me, me, thinking about me, me, me
I know you've thinking about me
