

# Just Like Rain

Glenn Medeiros

On a rainy night I saw you  
With someone on your arm  
You laughed the way we used to  
And I felt it cut my heart

I pretended not to notice  
The way you looked in his eyes  
But it hurts me to realize  
That I can't hold you

Just like rain  
I fall for you  
And like these tears I cannot hide  
The sky is crying too  
I'd seen your face  
And just like rain  
I fall for you

You always told me  
Our love would never die  
Now it's too late for me  
To see that you were right

I should have told you  
How much I loved you  
When you needed me to  
Now here you are with someone else  
And I can't hold you

Just like rain  
I fall for you  
And I wonder if you know  
How much I miss you now  
I hear your name  
And just like rain  
I fall for you

If I told you now  
That I couldn't stand the pain  
Of living without you  
Would you stop the rain?

I hear your name  
Like the tears on my face  
I fall for you

(Just like rain)  
Just like rain  
Like rain  
Ooh-oo-oooh-oo-oooh  
Just like rain
