

# I've Just Lost Somebody

Golden Earring

She came down from far away and smiled at me  
In one moment I found out how love can be  
Then I realized that she had gone again  
I've just lost somebody  
A-ha, please let me dream

Though I know that love ever happened this way  
I'll be here untill she will return one day  
Here low, I am dreaming, she must appear again  
I've just lost somebody  
A-ha, please let me dream

She came down from far away and smiled at me  
In one moment I found out how love can be  
Then I realized that she had gone again  
I've just lost somebody  
A-ha, please let me dream
