

Stranger

Goldfrapp

Stranger, when you look at me
Eyes strong as steel
Light as day.

Born a mystery
You're the in between
Boy or girl.

Wilder,
Than I've known before
Fire rushes through everything

With that smile it seems
You'll be killing me
Tenderly

Every word is soft as fur
I'm drifting deep
Deeper in

Stranger will you remember,
Stranger make me
Remember you
Remember you

Taken back
The crowd are tired
It's dead and gone
Do or die.

Stranger I dream of you and
Stranger I will
Never know
Never know
Never know
