

## Fist In Your Face

Gotthard

You pushed it to the limit  
Now you gotta choose tonight  
Tarot woman,  
you're all about to loose the fight

Don't need a part time wizard  
Who drives me outta my mind  
Cuz I'm allright  
I gonna live it up tonight

Once upon a time,  
Trought the world was mine alone  
Had no time to realize,  
It came without a warning at all

Like a fist in your face  
A fist in your face

And there's a time bomb ticking  
Deep inside my head  
Must be a black hole attraction  
A wrong step n' your dead

Don't know the words surrender  
Don't know the rules of the game  
I'm ready to go and I swear  
You won't forget my name

Once upon a time,  
Trought the world was mine alone  
Had no time to realize,  
It came without a warning at all

Like a fist in your face  
A fist in your face
