

# Arms Of Harm

Haley Bonar

You've been keeping something from me baby  
By now maybe, it's disappeared  
I've been waiting for the perfect moment  
just to own it  
just to say that  
I'm okay  
I fell and loved  
you and me  
is all I've got

I've been waiting in the ground for hours  
under the flowers  
burying  
I just wanna rest with you forever  
stormy weather  
listening  
we were the grass  
now we're the rain  
I wanna see  
your smile again

hnhmhmhmhm

You'll bring the guitar baby  
I'll bring the beer  
We'll sing and dance till its half past 2  
then we'll fall asleep

dreaming of the way it's supposed to be  
dream baby  
dream a little dream of me  
save from the arms of harm  
save from the arms of harm  
Ohoho
