

Angels Get Lonesome Sometimes

Hank Williams Jr.

Billy there's something I wanna tell you
I know it's gonna hurt your pride
But you're slowly losing your woman
While you're putting in all that overtime

I know you think she's a lady (she's a lady oooh)
But love can be so blind
I know you think she's an angel
But even angels get lonesome sometimes

You can't leave an angel lonely too long
You gotta love her you gotta provide
When her mind has time to wander don't you know
Even angels get lonesome sometimes

Billy there's something I'm gonna tell you
Lord you know I ain't gonna lie
No I did not take her from you
Don't you know angels get lonesome sometimes

You can't leave your lady lonely too long
She needs lovin' like you and I
When her mind has time to wander don't you know
Even angels get lonesome sometimes
