

# You Don't Even Know My Name

Hanna Pakarinen

Baby,  
I'm your little mistress  
Waiting for a ring  
From my king now

You're my  
knight in shining  
armour  
I'm your maiden in distress  
I'm such a mess now

You've just ruined my make up baby  
You don't even know my name  
You just don't care but still you hunt me  
You don't really feel the same  
I'm dying to make you want me,  
want me too  
'Cause I want you  
I want you

I could see our future clearly  
So tell me, who's that girl?  
Who holds your hand now

Baby,  
I forgive you  
I know she means nothing to  
Means nothing to you

You've just ruined my make up baby  
You don't even know my name  
You just don't care but still you hunt me  
You don't really feel the same  
I'm dying to make you want me,  
want me too  
'Cause I want you  
I want you  
I want you

You don't even know my name  
You just don't care but still you hunt me  
You don't really feel the same  
I'm dying to make you want me,  
want me too  
'Cause I want you  
I want you  
I want you

You don't even know my name  
You just don't care but still you hunt me  
You don't really feel the same  
I'm dying to make you want me,  
want me too  
'Cause I want you  
I want you  
I want you  
I want you
