

## Light A Candle

Harpo

Won` t you light a candle  
And let it shine to guide us through the darkness  
Let that candle keep on burning  
'Cross the stormy seas tonight

Won` t you light a candle  
Sending hope 'way across the ocean  
A candle to remind us  
Our tomorrow is on its way

We` re sailing on the stormy seas of destiny forever searching  
Carried by the wind up on the rolling waves of time  
So, please light the fire to show the way back home  
How we need tbat light, shining bright to steer us on our way

So, won't you light a candle  
Sending hope way across the ocean  
A candle to remind us  
Our tomorrow is on its way

We` re lost upon the swaying waves of yesterdays in starless Da  
rkness  
Looking for a faraway horizon to shine through  
So' please light the fire to show the way back home  
How we need that light, burning bright to steer us on our way

So, won't you light a candle  
Annd let it shine to guide us through the darkness  
Let that candle keep on burning  
Cross the stormy seas tonight

Won't you light a candle  
Sending hope 'way across the ocean  
A candle to remind us  
Our tomorrow is on its way

Won't you light a candle  
Our tomorrow is on its way
