

## Sunflower

## Heart

Sunflower  
Blooming in your finest hour  
You have come into your power  
And you spill it over me

Such petals  
Standing shameless in the air  
Catch the eyes of other lovers  
With the colors that you wear

I have only seen you grow  
From the seed I used to know  
In the burning breath of summer  
Gardens off to glow

Sunflower  
Just the way you speak my name  
I will never be the same  
Oh yeah

Sunflower  
Never steal your eyes away  
Even when the seasons change  
A little sun, a little rain

I have only seen you grow  
From the seed I used to know  
In the burning breath of summer  
In the gardens off to glow

Sunflower  
A little sun, a little rain  
(Even when the seasons change)  
Even when the seasons change  
Sunflower  
Even when the seasons change  
A little sun, a little rain
