Murder

Helmet

Tight security
Looks that challenge
Savage end, make the food chain balanced
Even the fabulous can't avoid
A random attack to pass a boring night, blue

Blue habit sap my strength

Fleet of dump trucks line my street

Bludgeoned to death or shot in the head

Murder down the hall

That green monument won't prevent death, no one

No one said, no one's safe No one said, no one's safe No one said, no one's safe No one, no one's safe
