

Sing For You

Honor Society

There is a time for everyone
Where they decide who they'll become
The leap of faith where fights are won
I know I'm not the only one
It's a long way up
But I won't stop

I'll sing for the broken hearted
I'll sing for the dreams that won't come true
And the music won't stop playing
Tonight I sing for you

I'll dream about the place we started
Hold on to the past we can't undo
The music kept on playin'
Now tonight I sing for you
Sing for you

I may be far but you're not alone
I won't be safe till I come home
You're in my heart
And you're in my soul

I'll sing for the broken-hearted
I'll sing for the dreams that won't come true
The music won't stop playing
Tonight I sing for you

I'll dream about the place we started
Hold on to the past I can't undo
The music kept on playin'
Now tonight I sing for you

I'll sing for the ones who have fallen
I'll sing when there's nothing left to lose
I know that they're your dreams too
And I'll sing it all for you
I'll dream about the place we started
Hold on to the past I can't undo
But the music kept on playin'
Now tonight we sing for you
