

## North And About

Hot Water Music

We've seen these roads before  
Watching the states through the windows  
Makes me feel all the more  
When there's a purpose that can make me sure

I'll show my glory  
In time  
As we spread this truth  
I'll take your glory  
Feed till I'm full  
So I can give you more

Never thought my dream would soar  
At least as high as it's soaring  
Makes me feel all the more  
Now that I've broken free and I'm living it through

I'll show my glory  
In time  
As we spread this truth  
I'll take your glory  
Feed till I'm full  
So I can give you more

What more could I need?  
When I'm already on top of the world  
As hard as it gets

I'm sticking with it  
Growing with it  
With my friends  
I'm not ejecting
