## **North And About**

## **Hot Water Music**

We've seen these roads before
Watching the states through the windows
Makes me feel all the more
When there's a purpose that can make me sure

I'll show my glory
In time
As we spread this truth
I'll take your glory
Feed till I'm full
So I can give you more

Never thought my dream would soar
At least as high as it's soaring
Makes me feel all the more
Now that I've broken free and I'm living it through

I'll show my glory
In time
As we spread this truth
I'll take your glory
Feed till I'm full
So I can give you more

What more could I need?
When I'm already on top of the world
As hard as it gets

I'm sticking with it
Growing with it
With my friends
I'm not ejecting
