

## Evil Men

Inkubus Sukkubus

Evil men do evil deeds  
Evil men plant evil seeds  
In evil women where evil breeds  
With evil men to fulfill their needs

It will end in fire and blood  
It will end in tears

Evil hearts make evil minds  
And evil souls are one and a kind  
Evil thoughts make evil things  
And evil gifts are what evil brings

The stage is set for future regret  
And Lady Luck will betray you  
And sorrow descends on swift dark wings  
The beast inside will destroy you

Evil women and evil girls  
Bring evil sons into an evil world  
Evil men make more evil men  
Who make evil women, who make evil men

You stared at the Abyss and it's turned you to this  
From destroyer of monsters into a monster  
Sweet Angel of Love, now your hands are stained with blood  
And you are everything you hated

Evil prophets quote from evil books  
And stoke the ovens where evil cooks  
Evil money means evil greed  
An evil dog bites the hand that feeds
