

Signs come above the air  
As we seek for our future ways  
Sail far beyond the stars  
There you'll find your expecting days.

Days painted black down on earth  
We recall since our birth  
We were given no hope  
At last we are ready to go.  
Spacerunner

Face you eternal dream  
Break the cell of your boiling fears  
No trace, move with out a trace  
From the past there is no time for tears

Days painted black down on earth  
We recall since our birth  
We were given no hope  
At last we are ready to go

Take a ride to the sun  
Tasting space as you run  
From this lie now you are gone  
Find the place we belong

The place where we belong  
Is far beyond the stars,  
Spacerunner...
