

# Unknown

Iris

I understand  
But I don't listen  
Too perfect school  
For this tuition

I feel unknown  
The ever still decay  
But I can't stop  
I carry on this way

Here inside  
Going down the road where I'm not followed  
Deep into an empty hollow

All out of speak, I feel the fight, it's on  
But I've been late to know  
The light's return is gone

And now  
Theres been talk about us  
Right down to knowing you're gone  
I watch you stream across  
While all of their voices go on

All is a sign  
Tuned in a thought but I'm still just  
Walking blind  
I can't get a single true reply

I'm in the dark and all reserves are low  
I hear the underworld  
A' calling from below

Cause now  
Theres been talk about us  
Right down to knowing you're gone  
I watch you stream across  
While all of their voices go on

All out of speak, I feel the fight, its on  
But I've been late to know  
The light's return is gone

And now  
Theres been talk about us  
Right down to knowing you're gone  
I watch you stream across  
While all of their voices go on

And now  
Theres been talk about us  
Right down to knowing you're gone  
I watch you stream across  
While all of their voices go on
