

## River Runs Deep

J. J. Cale

Well, the river runs deep and the water is cold as ice  
The river runs deep and the water is cold as ice  
I go down there every chance I get  
It's where my baby she met her death  
And the river runs deep and the water's cold as ice  
Ain't no woman gonna make a fool out of me  
Ain't no woman gonna make a fool out of me  
Running 'round, that's what they said  
She's at the bottom of the river dead  
And the river runs deep and the water's cold as ice  
No cheating woman gonna get a good man down  
No cheating woman gonna get a good man down  
Running 'round like a silly fool  
You're gonna end up at the bottom of the pool  
And the river runs deep and the water's cold as ice
