

Only A Woman Like You

Jack Greene

Only a woman like you can make a man of me
For a man like me can't go through life alone
Only a woman like you can make a man of me
Without your love I'm weak but with your love I'm strong

Down, every road I'll have to walk and every path, I'll have to
cross
I'll need someone who'll always stand by me
Someone who can take my smallest dream
And put it into the greatest thing

Darling, only you can make a man of me
Only a woman like you can make a man of me
For a man like me can't go through life alone
Only a woman like you can make a man of me
Without your love I'm weak but with your love I'm strong
Without your love I'm weak but with your love I'm strong
