Just a little bit closer, a little closer still If you let it take you, baby it will Baby, I can feel it, you can feel it too Lettin' go is all we have to do It's just me and you

Tonight I'm gonna be your lover Tonight I'm gonna be your friend Baby, don't worry 'bout forever 'Cause this ain't gonna end

I wanna take your body, baby
I wanna take your soul so high
I wanna steal your heart, give you mine
I wanna be the man in your life

It only takes one moment, only takes one kiss You're the only one who makes me feel like this Baby, it's magic we can disappear Make the world stop turning, baby come here Won't you just come here?

Tonight I'm gonna be your lover Tonight I'm gonna be your friend Baby, don't worry 'bout forever 'Cause this ain't gonna end

I wanna take your body, baby I wanna take your soul so high Steal your heart, give you mine I wanna be the man in your life

Tonight I'm gonna be your lover Tonight I'm gonna be your friend Baby, don't worry 'bout forever 'Cause this ain't gonna end

I wanna take your body, baby
I wanna take your soul so high
Steal your heart, give you mine
I wanna be the man in your life
Just wanna be the man in your life
Man in your life
