

# Wings of My Love

Michael Jackson

When this old world gets you down  
When your spirit's on the ground  
Just remember I will always be around  
Just climb on the wings of my love  
I'll take you high on the wings of my love  
When you're feeling all alone  
Like a child who's got no home  
You know you've always got a place where you can go  
Just climb on the wings of my love

Like a beach that knows no boundaries with all the trees  
As it rushes to the seas darling we'll be just as free  
I'll lift your spirits high our love will fly  
We'll have heaven blue skies and forever sunshine

'Til you break those ties that bind  
'Til that day you're really mine  
Anytime you want to leave your world behind  
Just climb on the wings of my love

I'll lift your spirits high our love will fly  
We'll have heaven blue skies and forever sunshine

We've got rainbows yet to find  
And we'll find them all in time  
Girl you know someday we'll even touch the sky  
Just climb on the wings of my love

Anytime you want to leave your world behind  
I'll take you high on the wings of my love  
Just take my hand and together we'll touch the sky  
Just climb on the wings of my love  
Yes remember I will always be around  
I'll take you high on the wings of my love
