

Silver String

James Iha

I need you dear, you lay sleeping by my side
And I worry dear but things you say are bright and gay
And I warm to your words of encouragement
And not a soul knows what I will know

Were lovers dear and were honestly
Together somehow and tied with silver string
We'll live forever and ever
And if you decide

Downhearted, down cause we live apart
No, I can't fake it not for one more day
If there's someplace we can go
If we can make a home

It's up to us to cope
In you I trust in all things there's a must
And I will live again
Were lovers dear and were honestly

Together somehow and tied with silver string
We'll live forever and ever
And if you decide
Were lovers dear and were honestly

Together somehow and tied with silver string
We'll live forever and ever
And if you decide
